

## **Session Program**

**8-11 Jun 2026**

# **14th International Workshop on $e^+e^-$ collisions from Phi to Psi 2026**

## **Hadron Production**

Pisa, Scuola Normale Superiore, Aula Dini, Palazzo del Castelletto  
Via del Castelletto, 11, 56126 Pisa PI

# Wednesday 10 June

09:50

## Hadron Production

Session |

Location: Pisa, Scuola Normale Superiore, Aula Dini, Palazzo del Castelletto, Via del Castelletto, 11, 56126 Pisa PI

09:50-10:10

### Novel Azimuthal Observables from Two-Photon Collision at e+e- Colliders

Speaker

Yajin Zhou

10:30

10:10-10:30

### Fragmentation function study at BESIII

Speaker

Isabella Garzia

11:00

## Hadron Production

Session |

Location: Pisa, Scuola Normale Superiore, Aula Dini, Palazzo del Castelletto, Via del Castelletto, 11, 56126 Pisa PI

11:00-11:20

### Light Meson decays at BESIII

Speaker

Kailu Liu

11:20-11:40

### Measurement of the relative phase between strong and electromagnetic decays

Speaker

Francesca De Mori

11:40-12:00

### Three-body decays with Khuri-Treiman equations

Speaker

Sergi Gonzalez-Solis

12:00-12:20

### Towards an improved understanding of $a_1$ and $a_2$ transition form factors

Speaker

Hannah Schäfer

12:20-12:40

### Measurement of electromagnetic transition form factors in two-photon collisions at BESIII

Speaker

Max Lellmann

12:40
